The APL+Win v14.0.04 release is available and recommended for all current APL+Win subscribers. To obtain this release, visit <http://www.apl2000.com/software.php> and click "APL+Win v14.0.04 Update" or "APL+Win v14.0.04 installer".

The APL+Win 14.0.04 includes the following important fixes:

BUGFIX: In version 14.0.03, reading some heterogenous data in component files erroneously reported the FILE DATA ERROR error message.

BUGFIX: In CSE for APL+Win, the Reset method did not delete all existing instances of the CSE in the current session.

Please send any questions or comments to support@apl2000.com.
